RE: Cable Rate Impact Survey

Dear Mr. Hays:

Enclosed are the completed rate surveys for TCI's largest systems that we anticipate will be governed by benchmark rate regulation. The disk will be sent to you via express mail today for delivery tomorrow.

Excluded from this survey are those systems where we anticipate utilizing cost-of-service regulation, subject to release by the FCC of the final Report and Order. Also excluded is the Dallas system where rates were not changed because the system is less than 30% penetrated. The attached listing provides the details requested in the September 19 Order.

Very truly yours,

FEDERAL COMMUNICATIONS COMMISSION OFFICE OF SECRETARY

October 4, 1993

The Hon. James H. Quello Chairman Federal Communications Commission 1919 M Street, NW Washington DC 20554

Dear Chairman Ouello:

Enclosed is a copy of TCI's response to the FCC Rate Regulation Impact Survey. The data indicates that approximately 65% of TCI customers in the sample systems are experiencing rate decreases on regulated services and equipment while approximately 35% are experiencing rate increases. Typically, the amount of the decreases exceeds the amount of the increases. For example, in the extreme case of our San Jose system, decreases are between \$5.00-\$10.00 per customer, while increases average around 2 cents per customer.

Across our entire base, we estimate around 80% of our customers are experiencing rate decreases. The larger systems surveyed here have a disproportionate penetration of more advanced and costly equipment. This skews the ratio of decreases to increases downward for the sample systems.

The survey covers 13% of our customers. TCI revenues decrease by \$32.5 million per year in the surveyed systems. Across all our systems, revenue will decrease by \$140-\$160 million per year.

We have taken several steps to keep rates as low as possible. First, TCI has not employed discounted a la carte packaging in any of its cable systems. Second, the company has announced it will seek cost of service proceedings in only a handful of its systems. Third, and most important, TCI has refused to make cash payments for retransmission consent.

We must bring the process of establishing cable rate regulation to an end. Over the last several months, both our customers and our employees have endured a torture of channel changes, rate changes and constant publicity about the possibility of service disruptions from retransmission consent. Telephone call volumes have trebled in our systems, the stress level among our line employees is at a breaking point and our customers are confused at best.

We simply cannot go through another round of rate adjustments and notices to our customers at this time. We urge the Commission, in the strongest possible terms, to forego tinkering with the benchmarks and other rate regulations.

The Cable Act of 1992 and the Commission's regulations are designed to have their greatest impact over a period of years. Our intention is to do our best to comply with the letter and spirit of the law, but we must have an extended period of regulatory stability to make these regulations work.

Yours truly,

Robert N. Thomson, Senior VP Communications & Policy Planning

TELE-COMMUNICATIONS, INC. NOTES TO FCC RATE REGULATION IMPACT SURVEY

1. GENERAL:

These systems were omitted from the survey for the following reasons:

Dallas Effective Competition System TX0762
Tulsa Anticipated Cost of Service Filing OK0061
Baltimore Anticipated Cost of Service Filing MD0269

Equipment data (units and households) is shown for informational purposes only as no equipment is required to receive regulated service tiers.

2. Oakland, NJ

In April, the system had eight different rates for addressable converters. The rates were averaged in order to be reflected in the limited space on the survey form. Average rate calculation is shown below.

Dear Customer,

To comply with federal regulations under the 1992 Cable Act, we will be making some immediate changes to our channel line-up and charges for service. Some service and equipment rate levels may decrease in price while others may increase. Both changes are the result of rate formulas mandated by the federal government. These changes are effective on September 1, 1993. Rate adjustments and/or credits will be reflected on a subsequent bill.

TROUBLESHOOTING

TCT Cablevision of Sun Jose repairs its cable system and easignment free of charge (except in the case of willful or negligent damage). Many reception problems are TV set-related, 7Cl Cablevision of San Jose does not repair TV sets. These tips suggest who to call after you troubleshoot.

SCREEN DARK, NO SOUND - Is TV (or VCR) blugged in? is descrambler turned on? Is outlet controlled by a wall switch? If so, make sure outlet has power. If these fall, call Customer Repair.

TV "SNOW" AND RUSHING SOUNDS - Check cable leads on back of set. Make sure you have selected a channel with programming. If descrambler is used, make sure set is on channel 3. If problem does not clear in 15 minutes, call TCI Cablevision of San Jose Repair.

SOUND OK, BUT PICTURE ROLLS OR TEARS ON ALL CHANNELS - Check the vertical and horizontal controls on TV. If this fails, call TV repairman.

PICTURE "SCRAMBLED" OR BLANK ON PREMIUM CHANNELS - Normal for non-subscribed channels. If it occurs on subscribed channels, and you have a touch-tone phone, call 452-3322 to refresh your descrambler. If problem does not clear within 10 minutes, or you don't have a Tsuch-Tone phone, call TCI Cablevision of San Jose Repair.

PICTURE OK, BUT NO SOUND - Check volume control on TV. Check Mute and Volume functions on descrambler remote control. Check other channels. If single channel, check TV finetuning. Check if station is having problems. If these do not work, call TCI Cablevision of San Josa Repair.

CHANNEL ON SCREEN DOES NOT MATCH TUNING INDICATOR (Basic Customers) - Adjust fine tuning control. If this fails, call TCI Cablevision of San Jose Repair.

NOTE: When recording on a VCR, or when tuned to Storeo TV programming, set your descrambler to its highest volume level, and adjust listening volume on TV set.
